5. Discussion

5.1. Trace element geochemistry

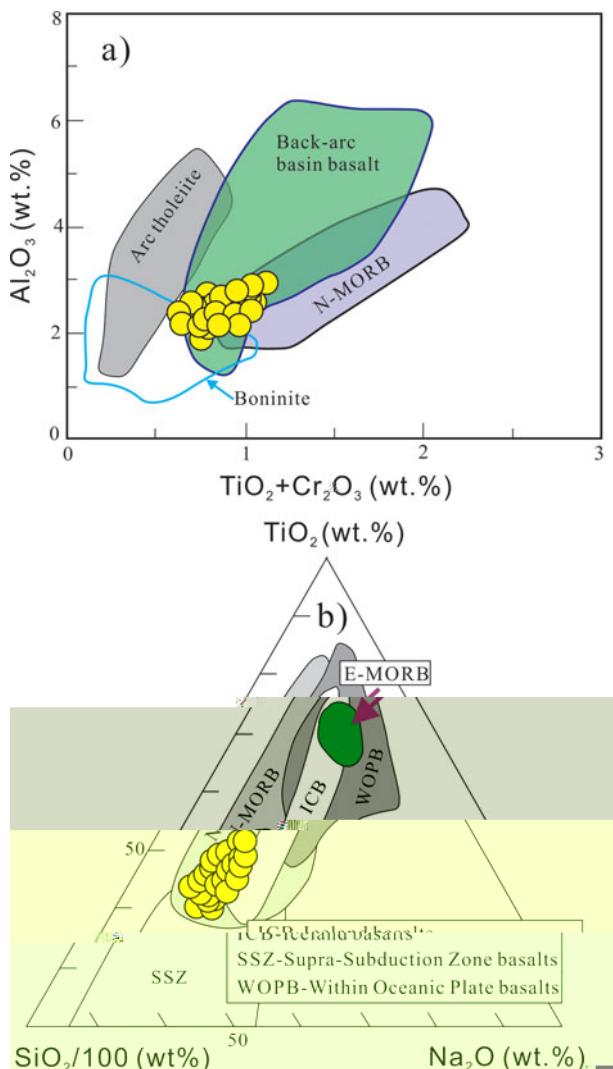

The trace element geochemistry of the Zhaheba basalts is similar to that of the basalts from the northern margin of the South China Sea (e.g. 401, 402, 403, 404, 405, 406, 407, 408, 409, 410, 411,
